

THE BEST NUTRITION
AND DRINKING WATER FOR
YOUR BABY AT EVERY AGE

COMPANY INTRODUCTION FROM THE CEO

Dear Partners and Customers!

ECONIA is a fast-growing company developing and producing innovative, high-quality, safe products for babies and is a leader in this industry.

Since its foundation in 1996, the company has been constantly developing, enlarging its activity in production and distribution of baby food and drinking water. Today, the range of our products includes more than 100 SKUs and meets the individual needs of each customer, while the quality and safety of our products is in compliance with the highest ISO, HACCP, IFS, Halal, FSSC international standards.

Wide product range, personal approach for each customer, comprehensive logistics and marketing support make ECONIA products available around the world allowing us to implement successful Private Label projects of any complexity. The main purpose of our company is to create high-quality products that will form the basis of health from the first days and for the whole life.

With more than 20 years' of experience in the market, the company has become an expert in baby food and has gained the status of a reliable partner that provides unique products and services of the European level. ECONIA products are present in the countries of Europe, CIS, Asia and Middle East, and are actively winning the market of Africa.

Sincere regards,
The CEO of ECONIA FIE LLC,
Iryna Varagash
