manufacturer

Our philosophy

Mission

Provide our clients with high quality
and safe in use products
for the best price

Goals

To engage the resolute people who share the
healthy lifestyle and ready to bring it around
the world.

To build and develop the proper and
profitable business based on principle of
integrity and commonwealth.

Our history

Inter Atletika is a group of companies founded 29 years ago

- 2001 Company opened its own factory in Ukraine and produced the first wall-mounted ladders
- 2002 We developed and produced our first line of strength machines – «InterAtletik Gym» and fitness machines for home use

from 2004 Inter Atletika starts exhibiting at FIBO Germany

- 2005 We started production of outdoor sport equipment and children playgrounds
- 2007 Launch of the first premium line of professional gym equipment – NRG

2010 Launch of X-Line strength machines with further restyle in 2014 – X-Line R

In 2014 Development of the Multistation for functional training under eXplode brand

2017 Launch of premium plate loaded machines (Verti line) at FIBO'2017 in Cologne (Germany)

2020 Launch of the line for semi-commercial and home use, providing solutions for hotels, corporate gyms, country clubs, etc. – LC

Statistics

A close-up photograph of a gym's functional training equipment. It features a black metal frame with yellow horizontal bars. A green and black medicine ball is suspended from the top. A black rectangular sign with a yellow target graphic and the word "EXPLODE" is attached to the frame. The background is dark and out of focus.
