TUBE PLANT

Kharkiv city, Ukraine

OUR HISTORY

In addition to production divisions, the enterprise includes:

- design studio;
- quality control laboratory;
- tool shop;
- a unit for packaging cosmetic products under contract;
- service;
- trade offices in Spain and Germany.

For almost 30 years, Tubny Zavod has been a leader in the tube market.

During our fruitful work, we mastered the production of all types of tubes: laminate, polyethylene and aluminum.

Flexible production in a closed cycle allowed shorten the terms of order fulfillment, increase assortment, lower the minimum batch of supplies and make the products of our factory are a priority on the packaging market of Ukraine, Europe and the world.

In 2021, the enterprise provided jobs for more than 450 qualified employees. Rich production experience and unique technologies became the basis of the company's stability.

OUR CAPABILITIES & FACILITIES

GEOGRAPHY OF SALES

Western Europe :

Spain, Italy, Poland, Switzerland, Germany, France, Portugal, United Kingdom

Eastern Europe :

Ukraine, Moldova, Bulgaria, Georgia, Azerbaijan, Estonia, Lithuania, Latvia, Czech Republic, Greece

Africa:

Morocco, Tunisia

Asia:

Kazakhstan, Uzbekistan

POLYETHYLENE TUBES

110 mln
polyethylene tubes

The polyethylene tube workshop can produce up to 110 million tubes annually

100%
of
LLDPE & HDPE
material

6 lines

we have for polyethylene production

mixture
of
LLDPE & HDPE
+ recycled plastic
material

mixture
of
LLDPE & HDPE
material

Tube cylinders and shoulders can be made from LDPE Braskem and HDPE Braskem and can contain from 51 to 100% of Braskem polyethylene.

POLYETHYLENE TUBES

HOT
stamping
available

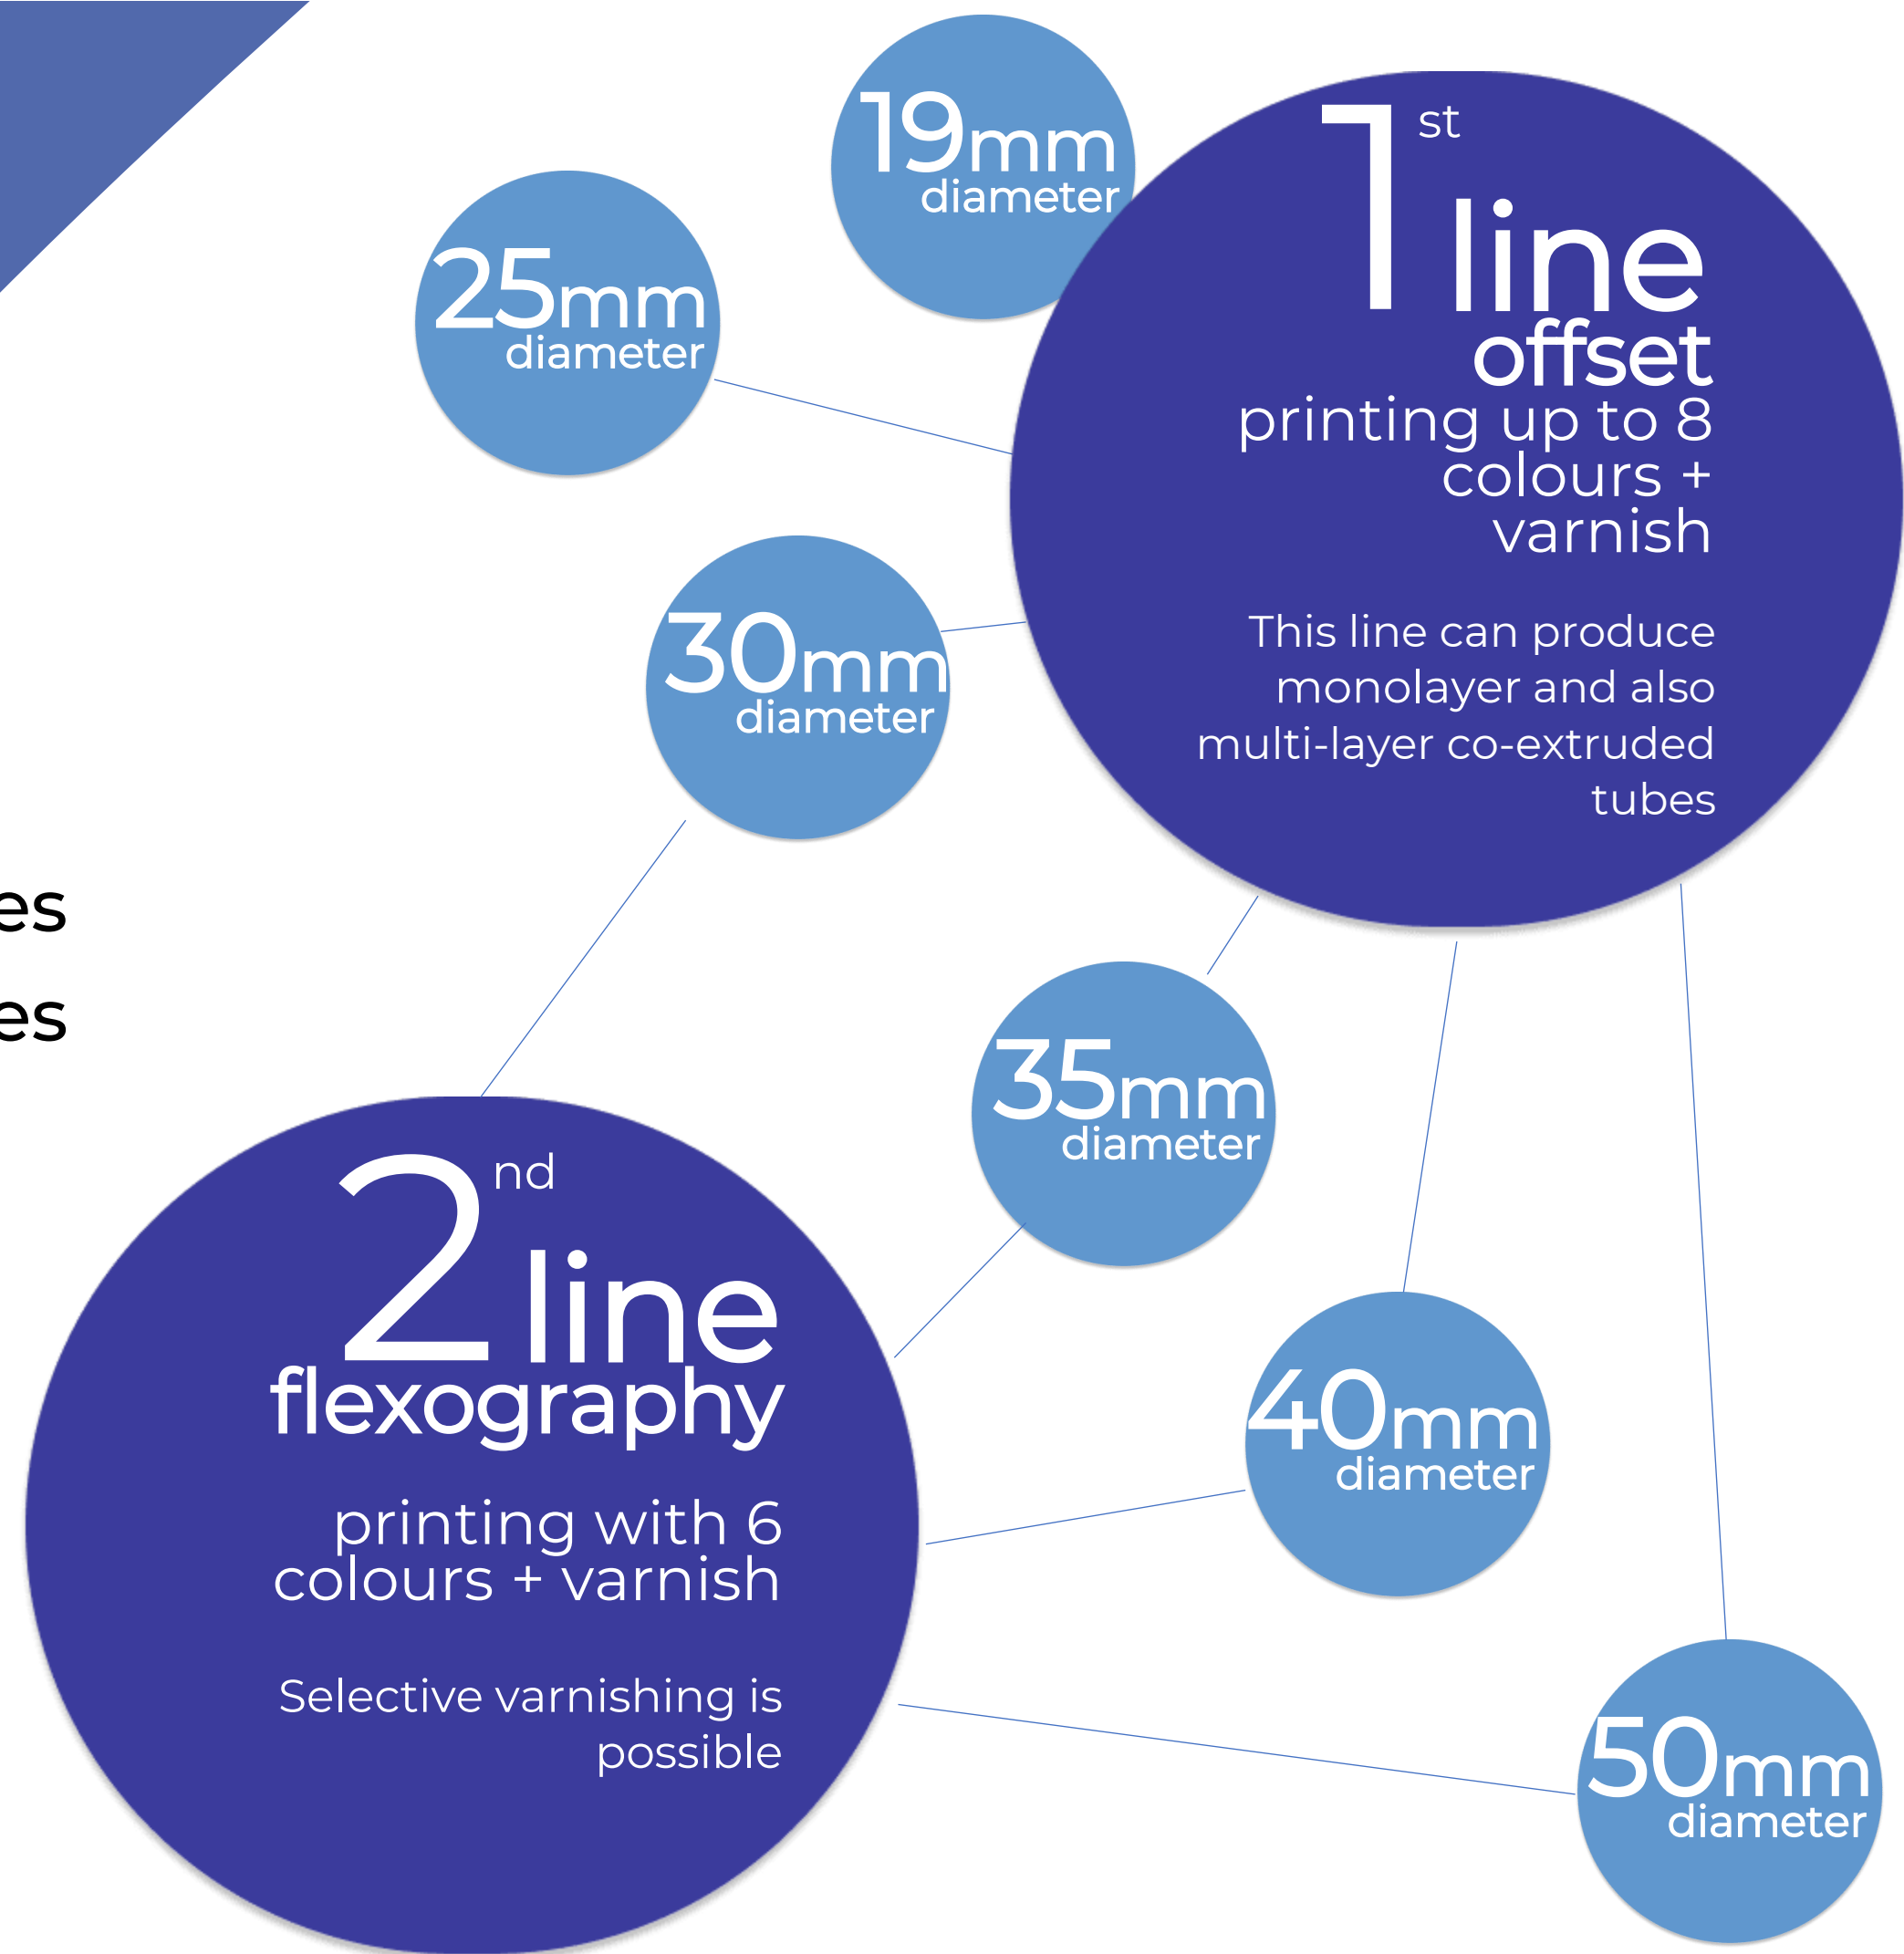

WIDE
range of foil
silver, gold, hologram,
blue, green, red,
etc.

Hot stamping
option is available
for all mono and
co-extruded tubes.

POLYETHYLENE TUBES

The technical and graphic capabilities
of each of the production lines

POLYETHYLENE TUBES

The technical and graphic capabilities
of each of the production lines

3rd line
flexography

printing with
6 colours +
1 silk-screen printing +
varnish

Selective varnishing is
possible

35mm
diameter

40mm
diameter

50mm
diameter

NO
print free lines

Printing completely from
the top to the bottom

Also possible to produce
monolayer and a multi-layer
co-extruded tube

POLYETHYLENE TUBES

The technical and graphic capabilities of each of the production lines

30mm diameter

4th line silk-screen

printing with 5 colours + varnish

Selective varnishing is possible

35mm diameter

40mm diameter

50mm diameter

19mm diameter

5th line silk-screen printing with 5 colours + varnish

Selective varnishing is possible. With standard thread and cannula

25mm diameter

POLYETHYLENE TUBES

The technical and graphic capabilities of each of the production lines

19mm
diameter

6th line
silk-screen
printing with 5 colours
+ spot varnishing

Selective varnishing is possible.
With standard thread, cannula
and lipstick

25mm
diameter

100%
recyclable

with an EVOH layer up to
5% of the total tube weight
with a threaded cap

For all our extrusion
multilayer tubes, as well as
co-extrusion tubes

LAMINATE TUBES

110 mln
laminated tubes

The laminate tube workshop can produce up to 110 million tubes annually

360°
overall printing

without longitudinal print free line at sealing area will be launched from November, 2021

4 lines

we have for sealing the laminate foil into the cylinder followed by soldering the shoulders and screwing the caps

LAMINATE TUBES

Available laminate options
for different diameters

white ABL

40mm
diameter

we have **2**
printing
machines

Each has 6 colours + varnish

The cold stamping available.
The options of foil: gold,
silver and hologram

35mm
diameter

white PBL
silver PBL

50mm
diameter

35mm
diameter

white ABL
silver ABL

25mm
diameter

50mm
diameter

28mm
diameter

ALUMINUM TUBES

100 mln
aluminum tubes

The aluminum tube
workshop can produce up
to 100 million tubes
annually

with up to **6**
colours + enamel
printing we have

Printing on 4 lines:
enamel + 4 colours.
One of our lines has 6
colours + enamel

enamel
transparent
or with a glitter

There is a possibility of
producing tubes with
transparent enamel or
with special enamel
containing a glitter
additive

ALUMINUM TUBES

22mm
diameter

25mm
diameter

19mm
diameter

5 lines
we have

Tube plant has 5
production lines with
most popular diameters

28mm
diameter

13,5mm
diameter

35mm
diameter

30mm
diameter
