# Patented technology

patent N137660 from 10/25/19

We created and patented the unique technology of tabs production:

- ✓ A special temperature regime allows us to make a coffee tab of the desired shape and consistency.
- ✓ A special grinding helps coffee to be brewed easily in your cup and helps to maximize coffee taste and aroma.
- ✓ Pressing on special equipment (giving the coffee the form of a tablet) is performed under certain physicochemical conditions and makes coffee tab to have ideal, accurate shape.
- ✓ Individual packaging in foil keeps coffee consistently tasty, aromatic and convenient to use everywhere.
