# "KAPITALPROMRESURS" LLC

Production of TM Siva planters that work  
according to No-Till technology

# About the company

Kapitalpromresurs LLC is one of the leading companies of Ukraine in the field of agricultural equipment production. Founded in 2010, our company plays a key role in the development of innovative agricultural technologies. We specialize in the production of "Siva" grain mechanical planters, which provide efficient and environmentally safe sowing using No-Till technology.

**- founder Liutyi Andrii**

# Our goals:

Satisfaction of customer needs when solving complex technological solutions in the shortest time

# Concept and priorities

01

## Innovativeness

We strive to be innovators in our fields of production

02

## Quality

Production of equipment with the highest level of quality and durability

03

## Support

Constant support, advice and consultation of customers anywhere in the world

04

## Efficiency

The production of equipment will set the highest standards of efficiency

# Equipment catalog

**Siva Optima**  
**No-Till**

Planters of three width sizes are available:  
3.6m, 3m, 2.1m

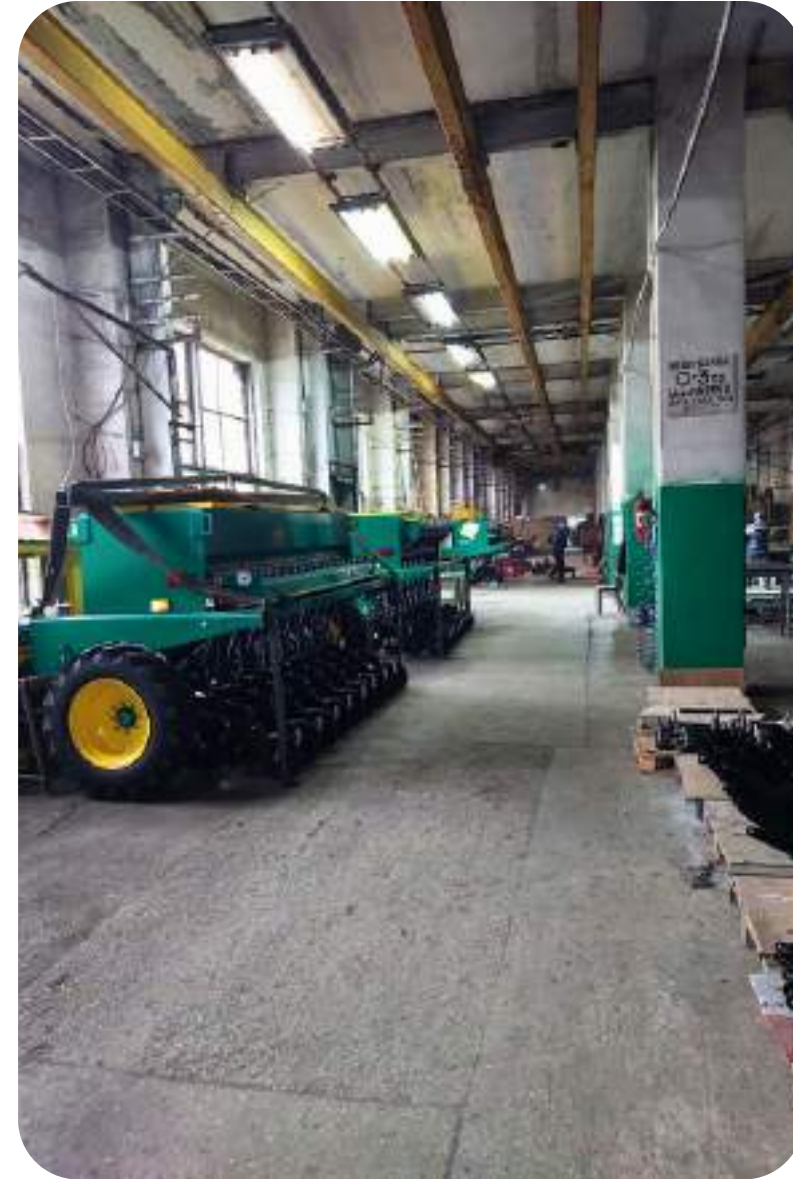

**Siva Nova**  
**No-Till**

Planters of three width sizes are available:  
3.6m, 3m, 2.1m

# Production power

"Kapitalpromresurs" LLC

## Machine tools

Modern high-tech machines with top specialists

## Opportunities

Batch production of equipment, development of new types of equipment, development of innovative solutions for equipment

## Area

Large area of 1500 square meters. production, with several shops, a dyeing chamber and a modern office

# Certificates and certificates

## Declaration of conformity

Products for which genuine confirmation is issued are safe and meet the requirements of harmonized standards

## CE certificate

The product meets the basic requirements of EU directives and harmonized standards of the European Union

# For partners

01

## Development

Technical consulting in matters of development and design of products and equipment

02

## Interaction

Work at the level of technologists, designers and managers

03

## Experience

Exchange of many years of practical experience at all levels

04

## Support

Support and assistance in solving various constructive and technological problems
