The history of the POLUS factory

Confectionery Factory «POLUS» was established in 1996.

The first product released by «POLUS» company was our legendary bar «Polus», which is a favorite delicacy of the Ukrainians for more than 20 years. The incredible popularity of this bar was brought by its nutritious, rich taste, convenient format, and natural and high-quality components. «Polus» bar with the hazelnuts is the basis of our confectionery manufacturing. For its production, we purchase the high-quality Georgian hazelnuts and cocoa of the best grades.

In our products we do not use preservatives, coloring agents and GMOs.

The main priority of the Confectionery Factory «POLUS» is the quality. Products of Company «POLUS» is certified according to Food Safety Management System HACCP ISO 22000 and FSSC 22000 vers. 4.1. Entering new markets, we are ready to receive all the necessary certificates to fully comply with the standards of importing country. So in the beginning of 2017 we have received the HALAL certificate. In addition, on the basis of our Company we have a certified laboratory.

Confectionery Factory «POLUS» has a flexible production, great technical and technological capabilities. We produce a wide range of wafer products: wafer bar, weighted wafers, sweets, gift cakes and wafer semi-finished products. Currently, the Confectionery Factory «POLUS» successfully enters new markets in the countries of Europe and Middle Asia.

We follow all the leading market trends in the field of sales and production.

We follow the preferences of our customer and try to supply it with the quality and delicious product.

We believe that our bar will become not only the favorite delicacy of Ukrainians, but also for all people in the world.

Competitive advantages of our product: Wafers «Choco-Shocks», 45 g

Affordable price.

A unique feature is that this wafer is similar to the well-known «Bueno» wafer. However, our product has a three times lower price. The interesting and not easy to manufacture wafer shape makes this product stand out from other competitors.

Our main advantage is taste.

Each mould is filled with a delicate creamy filling combined with a crispy wafer, which is a complete delight for the taste buds. This product is covered with a dark compound chocolate, due to this the taste of the bar is not too sweet. More light and delicate taste compared to «Polus» bars. It is more suitable for the female audience of buyers who have decided that the principles of healthy living are not for them, because they want to live a delicious, happy life)

This product is the leader of our export.

We sold it in more than 57 countries of the world. It is highly popular not only in Europe, but also in America and the countries of the Middle East.

Wafers moulded glazed «Choco-Shocks» with hazelnuts: this is a unique product with the most popular taste in the world, Unusual shape, convenient because you can share with a friend, because it is very easy to divide into particles.

Wafers moulded glazed «Choco-Shocks» with sea salt caramel: this flavour is now N°2 in the world, after hazelnut. Everyone wants to try the taste of salted caramel, which is now present in almost any food product.

Wafers moulded glazed «Choco-Shocks» with cookies crumbs: a popular combination of the legendary taste of Oreo cookies together with delicate cream, crispy wafer. The taste of this product is very popular among young people and children, because it is interesting to taste 2 different products in one.

ウエハース

Wafer bar «Polus», 60 g

Competitive advantages of these products:

This is not a dessert.

This is a complete meal. With coffee, tea, warm milk. And even with Coca-Cola (it's a bomb-combination). You don't want it after eating. It is eaten as a second breakfast, lunch, or instead of lunch.

There is no other such shape, size and taste on the world market.

Large size is an advantage for the buyer. All our competitors make wafers weighing from 40 to 45 grams and the price of such products is often higher than that of our «Polus». A tall bar, multi-layering creates a unique taste.

We can produce it in large quantities and quickly.

«Polus» wafer cake with cocoa & grated hazelnut filling is a product that has been sold since 1996, it is the «locomotive» of our production. Our bar with a history of more than 25 years. A unique bar with classic and popular taste.

«Polus» wafer cake with cocoa & grated hazelnut filling

Wafer bar with grated hazelnuts and chocolate filling covered with dark compound chocolate
 Net weight – 60 g
 Shelf-life: 12 month
 HS Code: 1905321100

Competitive advantages of our product: Wafer bar «TOFFEE», 30 g

Absolutely unique product, without any exaggeration, which is too difficult to manufacture.

It is produced by only 4 factories in the world. We are the fourth. The prototype of this product is the «Tunnock's» wafer bar, which has been produced in Glasgow (Scotland) for 110 years.

This is the only wafer that stretches when biting.

The wafer layer is smeared with milky chewing caramel «Toffee». This wafer is also covered with a dark compound chocolate.

It has a sweet caramel taste and taste well with coffee or cappuccino. The average weight of the product, 30 grams, does not allow the human body to oversatiate, because the wafer bar is light, not greasy and delicate texture.

We are constantly searching for new, amazing flavour combinations.

Since one type of product in the assortment does not work, we have developed strawberry and chocolate types of this bar. However, since it is impossible to add colour and flavour to the caramel itself due to the very high temperature. We made colorful wafer sheets.

Our new tastes, super fresh mixes.

We have created 2 new bomb flavours of this product, these are interesting and tasty combinations of different fillings in one bar.

Wafer bar «SEA SALT TOFFEE» 30g: this is real caramel between wafer sheets. This product is difficult to manufacture, which is why few people are able to make such products in large volumes. And on the world market there are no such products as caramel on a strawberry and chocolate wafer sheet.

The first mix Wafer bar mix «TOFFEE & CARMEL»: is an interesting combination of real caramel with a delicate creamy caramel filling. Double caramel delight.

This is the second taste Wafer bar mix «TOFFEE & HAZELNUT»: this bar combines chewing caramel and hazelnut-flavoured praline filling. This is simply an unreal tasty combination of caramel with a nut filling, will conquer very one who tastes this product at least once.

Wafer bar «TOFFEE», 30 g

Wafer bar «SEA SALT TOFFEE»

Wafer bar with the caramel covered with dark compound chocolate
 Net weight – 30 g
 Shelf-life: 12 month
 HS Code: 1905321100
