

Ukrainian manufacturer of attachments and implements

A.TOM is a leading Ukrainian manufacturer of **attachments** for a wide range of agricultural, construction, road-building, municipal and mining machinery in Ukraine, such as shovel buckets, snow\silage plows, stump pullers, grapples, sweeper brushes, tree pruning machines, cutters, mounting platforms, concrete mixers, forks, etc.

A.TOM also takes an active part in the implementation and development of **organic farming** in Ukraine, as well as the utilization of organic waste. For this purpose, we have created a wide range of equipment for **composting**, processing, and application of farm waste products, as well as biogas plants.

We are actively developing and improving our products to meet the needs of the modern service market. **High-quality equipment** suitable for JCB, Caterpillar, Manitou, Volvo, Faresin, Toyota, Hyundai, Doosan, Kubota, Liebherr, John Deere, Claas, Mitsubishi, Nissan, Fendt, New Holland, etc.
